ROMAN ROBERT IONICA
Frontend Developer

ABOUT

Self-taught front-end developer passionate about crafting intuitive web experiences. Avid coffee lover and outdoor enthusiast. Excited to bring creativity to a dynamic tech environment.

WORK EXPERIENCE

Freelancer   06.2022 – Present
Frontend Developer

During this timeframe, I collaborated with diverse companies, including GeoSynergy, Simplify Creative Agency, and Qubist Studio, to implement tailored solutions for their clients.
My primary responsibilities involved crafting responsive and user-friendly websites, employing the most suitable tools for optimal results.

Aspropyrgos SRL   01.2019 – Present
Transport Planner

Responsible for developing and implementing efficient transportation and logistics systems. Managing the movement of goods, coordinating with transportation providers, and ensuring that goods are delivered on time and within budget.

GSV Rem Trans   05.2018 – 12.2018
Freight Forwarder

Coordinated the land transportation of goods using 3.5-ton trucks, ensuring timely and cost-effective delivery to their final destinations for an express logistics company.
